

LS ADVANCED MAGNETICS

Advanced Permanent Magnet Solutions

CAPABILITY STATEMENT

Advanced Permanent Magnet Solutions

Permanent Magnet Solutions & Supply Development

LS Advanced Magnetics is a Türkiye-based permanent magnet solutions and supply-development business. We help industrial customers define sourcing requirements and develop suitable supply options through specialist manufacturers, with a focus on motor magnets and magnetic assemblies.

Products

Sintered NdFeB

Arc/Segment Motor Magnets

High-Temperature Grades

SmCo

Block/Ring Magnets

Rotor & Magnetic Assemblies

Applications

BLDC Motors • Servo Motors • PMSM

Pumps • Industrial Automation • Robotics

Supply Strategy

Traceable supply options. Evaluation of supplier-provided origin and material documentation.

Non-China alternatives. Exploration of alternative supply routes where project requirements and availability allow.

Manufacturing partner development. Building relationships with European, U.S. and Korean manufacturers.

Prototype-to-serial-production support. Coordination of RFQs, samples and production requirements with suppliers.

Product availability, technical capability, traceability and origin are confirmed with the selected supplier for each project.
